

QA Engineer (Infrastructure)

ZiMAD

Job Overview

Job Type:	Full Time
Location:	Nis, Serbia
Address:	Сербия, Ниш
Website:	https://zimad.com/careers/

Description

Join the ZiMAD team, and let's collaborate to create exceptional games together!

ZiMAD is a US mobile game publisher and developer that has been at the forefront of the gaming industry since 2009. We are a dynamic multinational team, speaking 15 languages and living in 63 cities across 17 countries. With an impressive portfolio of world-class free-to-play projects, including titles like Magic Jigsaw Puzzles, Puzzle Villa, Art of Puzzles, Dominoes, and many others, we constantly push boundaries and believe that games can be more than just entertainment.

We've forged partnerships with internationally renowned IPs (like Disney, Nickelodeon, LIFE, Sony Pictures etc.) and strive to develop games that sharpen mental well-being and deliver remarkable user experiences.

We are looking for an experienced **QA Engineer** to join our Infrastructure department.

Responsibilities:

- Test native and Unity modules on iOS/Android/Amazon platforms
- Participate in testing client-server services developed for our game products
- Work with logs of integrated functionality
- Participate in the release process of new features and support game product releases
- Keep test documentation up-to-date; create test coverage for the modules and game products being released
- Submit bug reports and test reports to the bug-tracking system.

Requirements:

- 1+ years of experience in testing mobile applications (Android, iOS) and APIs
- Experience with application traffic analyzing tools

- Experience with large volumes of logs (must be able to view logs on the server and get logs from a mobile device)
- Understanding the application lifecycle and how mobile OS function
- Experience in writing and supporting test documentation; ability to compose checklists and test cases
- Experience in applying various test design techniques
- Knowledge of the principles of client-server applications
- Understanding the responsibility taken for the products and services released
- Knowledge of the principles of http and https protocols, JSON, and ability to work with Postman

Will be a plus:

- Knowledge of programming languages and test automation tools

What we offer:

- Opportunity to work for ZIMAD, a US company with a diverse portfolio of global free-to-play (F2P) projects with a multi-million monthly user base
- Involvement in the entire product development cycle
- Career growth prospects within an international company
- Remote work opportunities
- Flexible working schedule
- Bonuses based on the achievement of KPIs and financial results of projects
- Paid conferences, training (including language courses), and workshops
- Opportunity to choose voluntary health insurance (VHI) programs and receive compensation for their associated costs
- Opportunity to have sessions with psychologists to improve your mental health and well-being
- Participation in charity projects
