

Remote work

TALENTS IN GAMES

Senior UI/UX Designer

DataSakura

Job Overview

Location: Remote work
Website: <http://www.datasakura.com>

Description

Our company is called DataSakura, we are engaged in outsourcing development and support of well-known mobile games from the Zeptolab and Halfbrick studios.

Mission: provide outsource development services that would feel like high-quality in-house work.

Senior UI/UX Designer is needed to participate in game development project for famous studio.

Major Areas of Responsibility

Work with a cross-functional team in a fast-paced, agile development environment to deliver/maintain aesthetic and usable interactive experiences that keep the user's focus on the content rather than the interface itself.

Create and track art related tasks for user stories.

Prepare interface and menu sketches, style guides, wireframes, mock-ups, prototypes, and finished products.

Concept and create pixel art assets for in-game use, either from high res concept or from initial pixel art sketch.

Meet with producer/team lead to gather requirements for user stories.

Required Skills/Qualifications

Minimum 3 years of experience as a UI or UI/UX Designer/Artist.

Ability to design visual interfaces when given user stories, use cases, concepts of operation, or requirements.

Demonstrated experience with end-to-end product design involving both UI and UX requirements.

Proficiency in digital tools used to implement UI/UX designs (including, but not limited to Adobe Photoshop, Unity).

Experience designing UI/UX for mobile apps.

Experience in pixel art for mobile apps.

Collaborating effectively with cross-functional development teams.

At least Upper-Intermediate English.

Desired Skills/Qualifications

Experience coding in basic CRUD script.

Experience in designing mobile apps for both iOS and Android.
Experience with Agile methodologies.

Benefits:

Work for famous mobile game projects and studios;
Fulltime remote job (home-office);
Fixed working hours schedule (we believe in the importance of work-life balance);
Compensation program for work equipment and for co-working rent;
Courses and trainings including: professional, English, Agile, soft skills etc.
